MINI SOFT BOX

The MINI SOFT BOX is a smaller sister of the SOFT BOX and has a wide square opening (in the etched or shiny version). It is intended to show softness in form through the gentle folds in the glass formed by heat. The surface texture is key to the design, giving each piece a tactile texture that begs to be touched.

****NOTE:** mini *mirrored* soft boxes are not cut the same as the regular mini soft boxes due to the process of mirroring. See above pictures.

MIRRORED COLOURS**
