Welcoming Art Into the Realm of Daily Life

WALL PETALS

Wall mounted PETALS float gently, creating a 3D design element to interior spaces. Crafted from hot formed flat glass, this wall art is designed to resemble delicate petals that curve and overlap, creating a three-dimensional effect.

The combination of clear and frosted glass adds depth and texture to the piece, creating a subtle interplay of light and shadow that changes with the angle of view. Mounted with a small security pin, these elements are light and airy.

Let our design team customize an installation for your space.
